IRRIGATION SYSTEM

The unique sub-irrigation system is certainly one of the most appealing aspects of all LECHUZA planters. An integrated water reservoir supplies plants with the right amount of water for optimal growth. A water level indicator shows you exactly when it's time to water the plants again. Removable planter liners, available with many LECHUZA planters, make changing plantings fast and easy.

We blend function, design, and quality

WATER LEVEL INDICATOR

Takes the guesswork out of watering, telling you exactly when to refill the reservoir

WATER SUPPLY SHAFT

Makes adding water and fertilizer easy

LECHUZA-PON PLANT SUBSTRATE

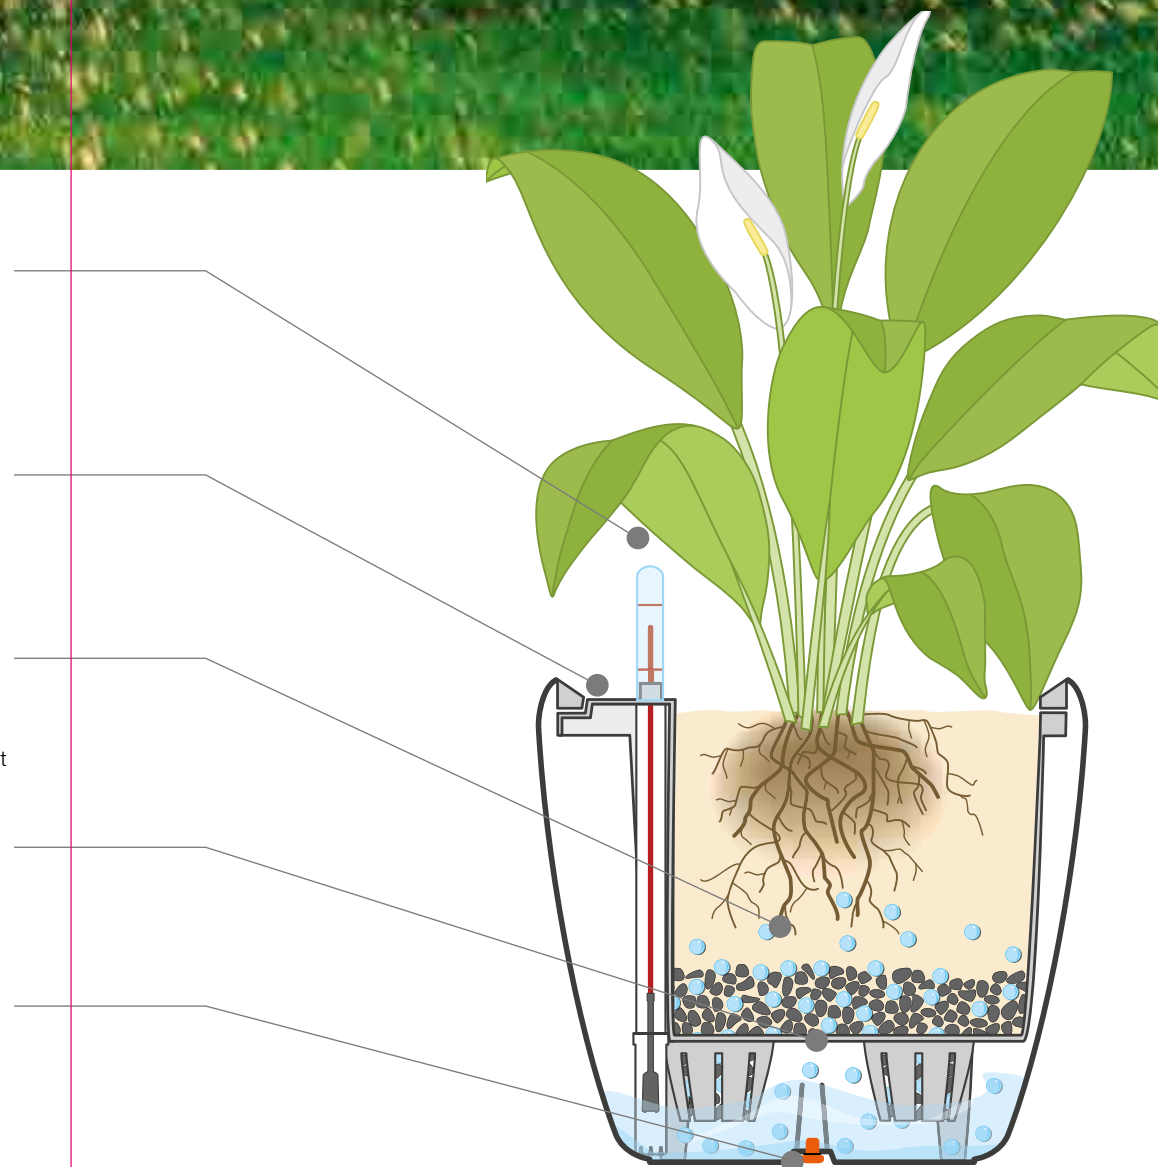

Perfectly controls the water supply to the plant

SEPARATOR

Forms the water reservoir in the bottom of the planter

DRAIN PLUG

Removed to allow rainwater to drain when used outdoors. Simply re-insert for use indoors.

Cottage COLLECTION

RUSTIC CHARM WITH A COUNTRY HOUSE STYLE

The Trend Collection Cottage line is the first choice for people who appreciate original country house style, but want all the advantages of a durable, plastic planter for outdoor use. These planters, along with the garden furniture line, have a natural wicker look that fits well with the green of plants in an earthy, outdoor setting. They add elegance and comfort to any patio.
